Diesel Particulate Filter, Oxidation Catalyst and Exhaust Gas Recirculation Cleaning and Repair

Our controlled burn baking and dual forced air and suction system ensures all cells are cleaned. Damaged fittings can be repaired or replaced.

If your DPF looks like
one of these, it is time
to replace it.

Metal Cleaning

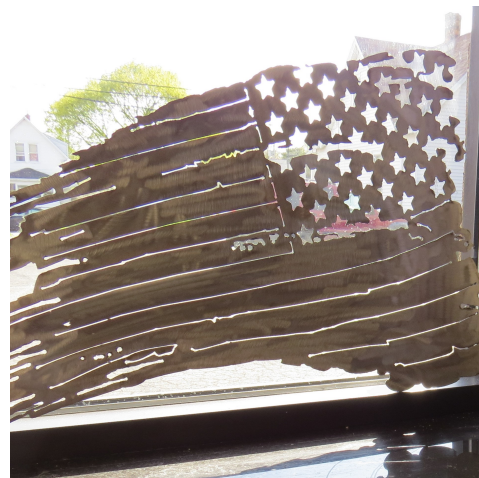

We have a burn off oven and sand Blasting - In House Wet and Dry

Need to remove the finish, grease, dirt, or rust from something. We can do it with our wet and dry sandblasting. Various blasting media can be used to accomodate a variety of items. Wet blasting reduces dust and heat buildup minimizing distortion.

Paint, varnish, and grease can be removed in our 800 degree plus burn off oven.
