Our Service and Guarantee

THE CHIMERA GROUP

Empire Radiator Service has joined forces with the Chimera group. We offer service coverage from Jamestown through Buffalo and Rochester to Albany. We also cover the southern tier route 86 corridor into Corning, Binghampton and Elmira.

Both Empire and Chimera have long been known in the radiator/heat-exchanger business since the mid 1940's. We have the expertise and knowledge to fix your problem the first time.

We take pride in our service and craftsmanship and use American made products when ever possible. Our technicians have Narsa HD and Macs 609 certification. Our staff is constantly training and learning new methods and procedures to better serve you with the perfect blend of old world craftsmanship and 21st century technique.

At any given point in time we stock over 2,000 part numbers covering cars and light trucks, all the way up to heavy class 7-8 trucks and off road equipment. We specialize in heavy aluminum coolers including air to oil, air to air and water to oil.

Other services include custom design and CAD drawing, CNC plasma cutting, sand blasting, full restorations of gas/fuel tanks and all kinds of vintage and classic radiators including ariplanes.

Your satisfaction is our #1 priority.
We provide service and expertise before and after the sale.
"Do it once, Do it right"

Check our website or call for details.
We are here to solve problems and keep your equipment running.
If we can't do it we will help you find someone who can.
